Practice Areas

Ruina Ma specializes in domestic and cross-border equity financing, private equity, venture capital, mergers and acquisitions, foreign direct investment, restructuring, and overseas listings. With a career dedicated to the life sciences and high-tech sectors, she has provided legal counsel to a wide range of clients, including investment institutions and companies at all stage of growth—from early-stage startups to publicly traded corporations.

In the life sciences sector, Ruina's expertise spans the entire industry spectrum, encompassing areas such as healthcare (including internet hospitals), pharmaceutical research and development, drug manufacturing, pharmaceutical distribution, medical devices and consumables, genetic testing, digital health, and elder care services. In the high-tech sector, her experience extends to semiconductors, chip development and manufacturing, IoT, TMT, artificial intelligence, and machine learning.

Ruina is licensed to practice law in both China and California. Her exceptional work in high-tech transactions has earned her the John Hart Ely Prize from Stanford University.
